# **CONSTRUCTION NOTICE**

# **CHILLED WATER SHUTDOWN**

**Where:** Early Childhood Education Center (ECEC)  
All Buildings, All Areas

**When:** September 25, 2023 – September 27, 2023

**Scope of Work:** Campus wide chilled water shutdown to install isolation valves above the ceilings at existing heat pump locations. Work to start on Friday at 6:00 pm and continue through Sunday evening.

**Reason for Work:** Classroom & Parking Expansion and Minor Facility Renovations

**Anticipated Disruption:**

- Chilled water shutdown at ECEC Central Plant to facilitate chilled water isolation valve install throughout Campus. All buildings will be without cooling for the duration of the shutdown.
- Contractors will be accessing multiple classrooms and office areas to install the new valves above the ceilings. We anticipate minimal disruption to the areas however some furniture may need to be temporarily moved to allow access to the chilled water lines above the ceilings. Contractors will replace items and all impacted areas will be cleaned at the end of the work.
- Noise and vibration disruptions may occur during construction activities.
- Construction personnel will be active in portions of the site and building. Anticipated work hours are 5:00 am – 10:00 pm. (Sat & Sun)

*Public Works and the Contractor will endeavor to minimize disruptions due to this work as much as possible.*

**For questions or concerns regarding this notice contact SRPMIC Public Works, Sr. Project Manager, Dwayne Wilson at 480-362-2666 or [Dwayne.Wilson@SRPMIC-nsn.gov](mailto:Dwayne.Wilson@SRPMIC-nsn.gov) .**
